C# Developer (m/f/d)
Xamarin.Forms & .NET MAUI Hero

We are a fast growing Austria-based startup and are developing **tonestro,** a mobile iOS and Android app for **learning wind and stringed musical instruments from scratch**. With more than **2 million downloads**, we are one of the biggest Xamarin.Forms B2C apps out there. In an effort to extend our **market dominating position** to further areas, we are looking for a C# Developer to expand our team.

tonestro is **developed in C#** (with Xamarin & **Xamarin.Forms**). Our backend is based on .NET Core and hosted in Microsoft Azure. While all the mission critical rocket science is kept close source, we are regulary contributing to **several open source projects**, as well as maintaining quite a few.

If you feel comfortable with Xamarin.Forms & .NET MAUI, and if you'd like to grow together with a young startup, we would like to get to know you!

What we expect

- Unbending **passion** for software development and a **reliable** and solution-oriented mindset

- **Xamarin.Forms and .NET MAUI** are technologies you know like the back of your own hand

- Proficient knowledge of **English**, written and spoken - German is a plus

- Do you play a wind or stringed musical instrument? With us you can **combine your hobby with your profession**! Non-musicians are welcome as well. 😉

- High performing and pixel perfect **user interfaces** are your passion.

What to expect

- A young, down-to-earth founding team with a **love for music**

- **Flexible working schedule** & agile development cycle

- We use the **latest technologies** from the .NET Core & Xamarin environment

- **Freelance** contract or permanent **employment** - everything is possible

- The possibility to work from **wherever you want** (stable internet connection required)

- Or if you'd like: A place in our brand-new air-conditioned, light-flooded **office in Upper Austria** (Resettlement possible)

Interested? Then go ahead and send us your application, your salary expectations and your earliest possible starting date to **jobs@tonestro.com** We're looking forward to getting to know you!
